## WHY WILLIS DADY?

### Did you know we were founded by a college student?

In 1987, Jim Welbourn founded a daytime shelter for men. Jim experienced homelessness for much of his adult life. He overcame his homelessness to found the shelter as a senior project at Mount Mercy University. He wanted a place where men would be “respected but held accountable for changing their lives.” He named the shelter for Willis Dady, a homeless man who lost his life while trying to save a drowning child in the Des Moines River.
